Naming Conventions

Image files are named by street address and year for convenient searching and sorting. The name also includes the title / description, the publisher (for postcards), and the contributors. This makes it easy to compare images along the same street, at the same address in different years, or from different sources.

Photo example: "Broad_East-013-1909-ph-National_Bank-Hw1909-RM.jpg"

	<ul style="list-style-type: none"> - East Broad Street, number 13 - 1909 as the image date - "ph" for photo - "National Bank" as title / description - 1909 Hopewell ("Hw1909") as the original document - Roberta Mayer ("RM") as the contributor
--	--

Postcard example: "Hart-036-19xx-pc-Newell_east-Pierson_Mobius_undiv-MZ.jpg"

	<ul style="list-style-type: none"> - Hart Ave., number 36 (or "st" if streetscape with unknown direction) - 19xx as the image date (circa) - "pc" for postcards - Corner of Newell Place, facing east as title / description - Pierson and Mobius as the publishers; undivided and handcolored as attributes - Carol and Bob Meszaros ("MZ") as the contributors
---	--
